

FT-1 DIESEL FUEL TEST KIT QUICK START INFORMATION

HERE IS A LIST OF A FEW KEY POINTS ABOUT OUR TEST KITS

FAST RESULTS

- Our FT-1 Fuel Test Kits are designed to work quickly to give you a overview of the quality of your diesel fuel.
- Results in just 5 minutes can be achieved by anyone.
- No special skills are needed to use.

INEXPENSIVE

- The test kits are low cost so they are very friendly on your budget.
- In fact even though they are cheap they are still of excellent quality.
- Great profits for re-sellers.

2 TESTS IN 1 KIT

- 1st test checks for water presence @ 20 PPM parts per million & above.
- 2nd test is a clarity (haze) rating check for high particle counts and possible microbe growth.

STOP PROBLEMS EARLY

- Degraded, dark & water contaminated fuel negatively impacts combustion & can cause breakdowns, damage to engines & fuel system components.
- Identify fuel problems early.

SAFE TO USE

- The materials in the test kits are non-toxic.
- 100% safe for both the user & the environment.
